## **Produce PDF's**

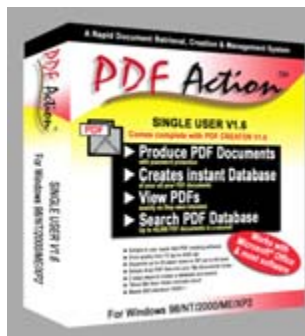

Produces one step PDF's from Windows programs (see PDF Action PDF Creator factsheet)

## **View PDF's**

View PDF's that contain heavy graphical content up to 300% faster  
The 'View' forward and back buttons allows users to navigate previously viewed documents (in that session) rapidly  
'Reads' your documents back to you and even the tabbed buttons can 'Narrate' as well  
Uses maximum viewing space via a 'flyout' bookmark menu system, which retracts automatically when not in use

## **Create a PDF Database**

Creates an instant database in 2 simple steps- drop files into your 'My Documents' folder, press build database its that simple  
Search the entire PDF database rapidly using one of 5 search engines with rapid PDF loading, 'search' and 'retrieve' in milliseconds . Search up to 20,000 x A4 PDF documents in approx .5 of a second  
Offers 3 different access security levels  
Opens external PDF's that are not placed into the database as a standard viewer  
Comprehensive video "show me how" tutorials included with the program
